LAST ROUND SPARRED

No More Slugging Exhibitions to Be Allowed in the City.

HENNESSY'S FLY TACTICS

Maloney Beats Edwards Easily—History of the Young Sprinter—Live Sporting Gossip of all Sorts.

BUTTE, Dec. 6.—White and Hennessy, the pugilists arriving this morning by Chief Carroll for engaging in a boxing match contrary to the ordinances of the city, were arraigned in the police court this afternoon. Both pleaded not guilty and were shortly afterward released on a bond of \$50 each, Alderman Hinds acting as their sureties. Later in the day warrants were also issued for the arrest of the seconds and referee and given to officers to serve. Collins, the sprinter, who acted as referee, was arrested this evening.

Mr. Carroll says he proposes to make a test case of the present mill and if sustained by the courts will in future allow no more exhibitions of such a nature to be given in the city as long as he holds his present position. The ordinance under which he made the arrests is so plain and succinct in its language as to leave open to one interpretation only. All kinds of boxing and sparring exhibitions were an admission fee is charged are strictly prohibited, whether for points only or where the prize is a sum of money. "Knocking out" one another. For engaging in such a contest not only the principals, but also the seconds, connected in any capacity therewith or attending such a contest are liable to arrest and punishment under the ordinance. The punishment is fixed at a sum not less than \$25 nor more than \$50.

Speaking of the case of White and Hennessy, City Attorney Corbett said today that he could not see what possible point the two pugilists could expect to gain by pleading not guilty and standing trial. That they were guilty of a violation of the ordinance could not possibly be disproven and this fact established the fact that no matter how the case was tried, the result would be the same.

Of the validity of the ordinance no doubt existed, said Mr. Corbett. It was legal and constitutional and would be so if published by the highest tribunal to which it could be appealed.

"Why the men were foolish enough not to plead guilty and pay their fines and get out of the scrape as cheaply as possible, I cannot understand," continued the attorney. "If they intend to make a fight they will certainly lose and be punished just the same and in addition will be put to the heavy expense of attorney fees, witness costs, etc., which will amount in all to a sum that will surprise them."

Much has been said of Hennessy's prowess as a fighter and the showing he has made in the two matches in which he engaged at the Comique caused him to gain a great many adherents. It cannot be disputed that he is a very clever and game scrapper, but in both of the contests referred to he had advantages not known to outsiders and these might as well be published at this time.

His first match was with Tom Fraker, by no means a pugilistic star. According to agreement the mill was to be a friendly contest only, no slugging to be tolerated. This was understood by Fraker, who stepped on the stage with the intention of adhering to the agreement, and did so. Before the match occurred, however, Hennessy was "plugged," to use sporting slang, and an extra inducement held out to him in the way of a promise of a certain amount of money over and above his percentage of gate receipts if he would spar a few friendly rounds and then go in and finish his man. Of this, of course, Fraker knew nothing, and at the end of a few rounds Hennessy started in to do the hardest slugging he could with the intention of knocking Fraker out.

Fraker continued to spar in a mild manner, and finally seeing that he was getting worsted, left the stage, but he was more or less severely punished.

White's fight with Hennessy was more or less a repetition of the first. White stripped for a friendly set to and at the end of the second round was being slugged by Hennessy's regular slugging style, while he himself did scarcely more than feint or strike the lightest blows possible. White was not aware of the trick put up on him, and consequently got much worse than he had before.

The results of the first two or three rounds would have been much different. After the fight had been stopped by the police, White said that he would not understand why Hennessy assaulted him so viciously when it was understood that the affair was to be strictly only an exhibition contest with all slugging prohibited. White during all the time he was on the stage sparring according to his understanding of the match and repeatedly refused to strike blows that would have sent Hennessy across the stage had he been inclined to deliver them.

Hennessy's sole ambition since his arrival in the city has been to make a reputation and he has eagerly availed himself of the underhanded advantages just mentioned to accomplish that result. A fair fighter would have rejected such propositions and made an honest endeavor to win the matches fair and square.

The foot race between Billy Maloney and T. F. Edwards which took place this afternoon on the race track, was won by Maloney by five feet.

Edwards is apparently a regulation sprinter, tricky and dishonest. A few weeks ago he arrived at Marysville and succeeded in making a match with Maloney for a small purse. Before the race took place Edwards approached Maloney and told him he would let him win, thinking Maloney was a "sucker." To this Maloney consented and for the first 50 yards he beat Edwards easily. Maloney having then obtained a fair idea of the speed possessed by his opponent, began to fall back and allowed Edwards to pass him and win the race without any apparent effort. Edwards bit at the bait and then came to Billy Maloney and induced some parties to back him to the extent of \$200 for a 100 yard race with Maloney, and felt so sure of his game that he allowed Maloney a start of five yards. Maloney accepted the challenge and found ready backers in a couple of Marysville men, who knew what he could do, and the Butte race track was selected as the place at which the race was to take place. The result has already been announced.

Maloney is one of the fleetest sprinters in the country and made an excellent record for himself several years ago in the Black Hills, where he resided for a long time before coming to Montana. He ran in innumerable firemen's tournaments in that country and was a member of the famous Deadwood team which on July 4, 1888, beat the team of professional runners sent from Council Bluffs, Ia., to compete in the free-for-all race for a large purse offered by the citizens of Deadwood. The race was hub-and-hub and the

remarkable time of running 300 yards in 22 seconds, was scored. It is true the two teams had the advantage of running slightly down grade.

With the same advantage as was given him by Edwards today, Maloney is prepared to make a match with any runner in the country. He is willing to make another match with Edwards for 75 yards, even start, for any amount from \$50 to \$1,000.

The latest plan for a foot race is between Flynn and Collins. They are probably the two fastest sprinters in the country and both are in the city. Flynn says he believes he can beat Collins for 100 or 120 yards and his willing to try him. Collins however was arrested today for being referee in the snoring match. Flynn says he is going back East in a few days and intends giving up foot racing.

A number of local sportsmen visited Helena today to witness the shoot between Frank Conley of Deer Lodge and James Fisk of Helena for the live bird championship medal. The weather being cold and disagreeable the attendance was small. They also proved to be a poor lot, although some exceedingly strong flyers were among them. Conley lost three birds which dropped dead just outside of the fence which marked the limit. Fisk's usual good shooting and good luck brought him out ahead. As a consequence the hot which accompanied him one of Conley's birds, a hard flying driver, was hard hit but lived long enough to fly across the fence before falling dead. Immediately after the first shot the two men went to the top of the fence and fell back inside and were secured as dead. Immediately after the first shot Percy Kennet and Kennet won considerable money. Conley has challenged Kennet for a match for the medal and according to the rules governing the championship Kennet must accept. Emil Hanson of Deer Lodge offers to match Conley against any man in the state for 100 birds for \$250 a side.

Another of the many month wrestlers has been made to crawl into his hole by Peter Seumacher. Some days ago James Pascoe, a Cornish wrestler, announced a desire to make a match with Seumacher, provided the latter would wrestle two falls catch-as-catch-can, and one Cornish style. Fred Ritchie accepted the challenge in behalf of Seumacher, and offered to back him to the extent of \$250. As an earnest of his intentions Ritchie deposited a forfeit of \$50 with the Standard, a fact which was duly published. After allowing the forfeit to remain up for three full days without word having been heard from Pascoe Ritchie withdrew the forfeit. Should Pascoe, however, desire to make the match at any time later on he will be accommodated.

ALL IN TUNE.

Organization of the Silver Bow Harmonie Society.

By the Standard's Special Wire.

BUTTE, Dec. 6.—A musical organization has been effected in Butte, known as the Silver Bow Harmonie Society. A committee was appointed to draft a constitution. This evening the committee met and prepared a constitution which will be presented at the meeting to be held tomorrow. The constitution announces the object of the society to be the cultivation of the art of music, the promotion of the promulgation of good feeling and friendly intercourse among the members of the profession. The officers will be a president, vice-president, treasurer, secretary, three directors, an executive committee of three and a librarian. All of the officers will constitute a board of directors. The officers are to be chosen by ballot.

Applicants for membership when proposed by a member will be referred to a committee. Their election will then be determined by a ballot. The fees will be one dollar for charter members and 50 cents for subsequent members. Dues will be 50 cents per month.

RETURN OF MR. KELLAR.

He and Mr. Ritchie are Trying to Adjust That Little Matter.

By the Standard's Special Wire.

BUTTE, Dec. 6.—C. O. Kellar, the fly youth who confiscated Fred Ritchie out of about \$200, was brought back from Missoula today by Under Sheriff Gallagher and placed in jail. Later on he and Mr. Ritchie had several conversations about the matter and although apparently both were willing to make a compromise, for some reason not known they were unable to arrive at an understanding.

This evening Kellar was arraigned before Judge Muldoon on a charge of obtaining money under false pretenses, to which he pleaded not guilty. His examination was set for next Monday at 11 o'clock and in default of \$500 he was remanded into the custody of the sheriff.

He was then taken to Mr. Ritchie and another conference was held. Mr. Ritchie afterward informed a Standard reporter that he thought matters would be arranged Monday morning and the difficulty settled.

Ghosts at the Bank.

By the Standard's Special Wire.

BUTTE, Dec. 6.—The phantom party at the Pavilion rink this evening proved to be a very pleasant affair. The attendance was large, although the number of maskers was not as large as was expected. Those that did not don the ghostly garb presented a weird appearance as they glided over the floor, silent and grim as spectres, and furnished not a little amusement for those not masked.

Held Up.

I. O. Mann of the White Front shoe store, 46 West Park St., was held up for nearly three days (4 days) the smoke commenced going) and was relieved of about 40 pairs of the E. P. Reed women's shoes, also a large lot of his men's best sewed shoes were taken from him, together with a large quantity of his children's famous school shoes were seized and taken away. Not being satisfied with this swag, they threatened to wait on him again and take his men's and women's fine warm shoes and slippers away, also to help themselves liberally to all his new fresh goods which were bought for this winter's trade. However I am closing my entire stock of boots and shoes and price out no figure in this sale. Your friend in boots and shoes.

THAT SMOKE MESSIAH

Butte Will Send Messengers to Him Immediately.

CAN HE DELIVER THE CITY

Mr. Palmer Thinks the Chicago Savior Doesn't Understand the Case—Dr. Roberts Says He Does.

BUTTE, Dec. 6.—Charles H. Palmer, superintendent of the Butte & Helena, and a member of the board of county commissioners, said today:

"I think this man Hutchinson of Chicago misunderstands the proposition as Butte's smoke. I am of the impression that he believes the problem is one of coal smoke, such as they have in Chicago. The character of the smoke produced by the Illinois coal has made the smoke problem a serious one in Chicago and this man evidently thinks that he has a coal smoke problem to deal with here. It would do no harm to send a man to Chicago to investigate the matter, but I really think the Chicago man misunderstands the proposition."

"There is no doubt in the world that the greater part of the sulphur can be eliminated from the smoke. But the product is sulphuric acid, and the only places where the sulphur has been eliminated are those places where there is use to be found for the sulphuric acid. What would be done with the sulphuric acid? It would be a very hard thing to get rid of. If thrown into the creeks the farmers from here to the Pacific would be kicking, for, of course, the water will be unfit to drink. It would be a very hard problem to dispose of the sulphuric acid."

"I believe that there will be a great deal less smoke one year from today than there is now, even if nothing is done directly toward getting rid of it. The removal of the Boston & Montana to its new smelters at Great Falls will rid Butte of a very large share of the smoke. I believe that much more of the smoke that distresses Butte comes from the Boston & Montana than from any other smelter. This removal will take place next fall, not later than that, anyway. The heap roasting, too, that is now practiced by the Boston & Montana company, will also be gotten rid of. This smoke always comes to Butte on a still day, and I believe the people of Butte will be greatly pleased and surprised next year at finding the great reduction in the quantity of the smoke."

It has been said by some that even if the Boston & Montana moves to its new smelters next fall, that the old smelters in Butte will still be used. But this is not true. The old smelters are in ruins and will not be used in the coming year."

Dr. Heber Roberts, who has conducted the correspondence with Mr. Hutchinson, was asked by a STANDARD reporter today whether there was a possibility for a misunderstanding of the situation by the Chicago man.

"If he doesn't understand the case," said Dr. Roberts, "he must be the thickest blockhead in America. Three separate times in three separate letters I have distinctly stated to him the difficulty we have to contend with, and I am absolutely certain he understands the situation as well as he can be made to understand it by correspondence. If he were a blockhead, he certainly would not be recommended by the board of health of Chicago and the chief smoke inspector of that city. Whether the man can dispose of Butte's smoke is a question that is not determined. But that he understands the problem is a certainty for he has it in black and white in three letters that the smoke results from smelting ores."

Mayor Valton has been busy today in taking steps to raise the funds necessary to send an investigator to Chicago. He has received assurances that the money will be forthcoming from the council, but it has not yet been possible to get the council to consent to the proposed plan.

Opinion among citizens generally is that Dr. Roberts is the man of all in the city in whom the most complete confidence would be felt for a trip of this kind. He is a man well posted on the question, and one who can be depended on to find out what there is to the matter and bring back a definite reply favorable or unfavorable as to the possibility of getting rid of the smoke. The expense of sending him there is so slight as not to enter into consideration, so long as there is a possibility of a favorable result. For years citizens have talked of getting rid of the smoke, and it is a matter for congratulation that there is now a move toward taking a step to get rid of the pest.

Reopening of the Avalon.

By the Standard's Special Wire.

BUTTE, Dec. 6.—The Avalon theater reopened tonight with the Oriental Burlesque company as the principal feature. "The Roman Fete" was the opening piece of a lengthy and well-selected programme. Following came the usual olio, composed of first-class specialties cleverly performed. Charles H. Ley did some difficult things on the unicycle. Tony Hart proved a good comedian and made a strong hit. The burlesque, "Monte Cristo, Jr.," which has enjoyed an unusually successful run in New York and other large cities, was next to the last on the programme and was about the most taking skit ever produced in the house. The performance closed with the finale, "In a Horn."

A Trio of Suits for Debt.

BUTTE, Dec. 6.—Three actions for debt were begun in the district court this afternoon. Two were against A. G. Garrison, one by I. G. Baker & Co. of Fort Benton for the collection of a promissory note of \$213.65 dated July 2, 1888, and bearing interest at 1 per cent. a month, and the other by the Western Iron Works for merchandise delivered between June and August of this year. The other was against Sidley & Sons, on Upper Main street, by J. F. Keeley for \$50, balance alleged to be due on goods. Attachments were made in all these cases.

THE DRY GOODS MENAGERIE!

THIS stock must be sold because of business changes which have long been contemplated, and in order to do it within the required time we knew that we would be compelled to undersell any and all competition with a certainty and to an extent which could not escape universal recognition. A few days ago we began what we may term the great "Underselling Sale," and how well we have succeeded is attested by the crowds that have thronged our counters and the manner in which we have stirred up some of the cages in the dry goods menagerie, as they are placarded with anything and everything calculated to make you believe that black is white. No matter what price others may quote, what discount racket they may attempt to manipulate with that skill which has been productive of such good results to them, we will discount our figures. Until further notice we will allow a discount of not less than 25 per cent., and oftener 40 and 50 per cent. That is, you can buy anything in this stock, whether dress goods, domestics, notions, carpets, wraps or men's ready made clothing, at a discount of not less than 25 per cent., and nearly everything at a discount of 40, or 50 per cent. Yes, 25, 40 and 50 per cent. discount here, and this is the effect, as it pertains to wraps and carpets, and please remember that the discount (never less than 25 per cent.) applies to every department.

Children's wraps, all ages, reduced from \$6 to \$3.50, \$7 to \$4, \$8 to \$5.50, \$9 to \$6, \$10 to \$7, \$12 to \$8.

Ladies' \$10 to \$15 Jackets, winter weights, reduced to \$3, and a very desirable line at \$2.50.

Ladies' Newmarkets reduced from \$50 to \$25, \$35 to \$20, \$25 to \$15, \$20 to \$12.50.

Very fine Broadcloth Newmarkets reduced from \$35 to \$20.

Novelties in Wraps and Jackets and Push Garments \$10 to \$15 less than value, and many of them cannot be seen elsewhere. Any garment in the store several dollars less than the same can be bought anywhere else in the state. Please remember that the stock is new and that the best prices have pronounced it to be the best in this city. The sale has begun and the choice of bargains suggests your prompt attention.

On next Monday the slaughter of prices will reach our carpet department, and these are some of the reductions:

Window Shades, with spring fixtures; 50c Shades for 25c each, 10 Shades for 50c each, 15 Shades for 75c each, 20 Shades for \$1 each.
